

Lucca Malta Freitas

• Full Stack Developer

ABOUT ME

I'm a developer in career transition, recently graduated in Systems Analysis and Development. My academic journey is just the beginning, as I am committed to constantly improving my skills and knowledge. In addition to looking for opportunities to apply what I learned, I am always looking for professional courses to keep up with the pace of technology.

I have experience in JavaScript, PHP, Tailwind CSS, Bootstrap, MySQL, Python and I'm currently also studying React with some facultative projects.

EDUCATION

Systems Analysis and Development - Estácio de Sá (Brazil)

Complete Technologist - 2021 to 2024

LAST PROJECTS

GitFind - Website

GitFind is a React-based web application that allows users to search for any GitHub profile and view their public repositories. It uses the GitHub API to fetch user data and provides clickable links to each repository for easy access.

Calculator-React - Website

The React Calculator is a simple app built using React that allows users to perform basic arithmetic operations such as addition, subtraction, multiplication, and division. It features a responsive design, making it usable on any device. Styled-components are used for styling.
